

4R400

FUNCTIONS

Made for structuring wood for flooring, timber beams etc. Heavy-duty machine with reinforced machine chassis and motors.

FEATURES

Control of machine functions through touch screen. Control of drum and conveyor speed by inverter. Independent height control of drums operated manually and visualized in analogue display.

TECHNICAL SPECIFICATIONS

Machine Dimensions

H:1950 X W:1100 X L:3200

Sanding Dimensions

Width 450mm

Height 120mm

Equipment

Steel or Tynex brushes

Flex Trim sanding system

Machine Control

Touch Screen

Speed Control

100 - 1.450 RPM

Conveyor speed

2 - 36 m/min

Total Power

15 kw

Voltage

380 V

Weight

1.600 Kg

Models

200-1200mm
