

LP 4V

FUNCTIONS

For all kinds of flat surfaces or in relief. Machine with advanced features for medium and big sized production. Touch screen and memory of programs optional. Equipped with Flex Trim sanding system.

FEATURES

Speed control by inverter
Conveyor speed control by inverter
Digital Sanding pressure control visualized in display
Digital Pressure roller control visualized in display
Oscillation and conveyor return feature

TECHNICAL SPECIFICATIONS

Machine Dimensions

For model 1000mm
1750 X 1520 X 3000mm

Sanding Dimensions

Maximum 1000 x 120mm
Minimum 300 x 100 x 4mm

Sanding Spindles

4 x spindles $\varnothing 40$ x 1000mm
Maximum external diameter 300mm

Equipment

Flex Trim sanding system

Speed Control

180 – 600 RPM

Conveyor speed

2 – 16m/min

Sanding Pressure

Digital visualized in display

Power

8,5 Kw

Voltage

380V + neutral

Weight

1400 kg

Models

Width 1000mm
Width 1300mm
