

LS2I 1300

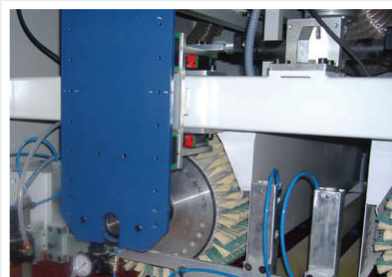

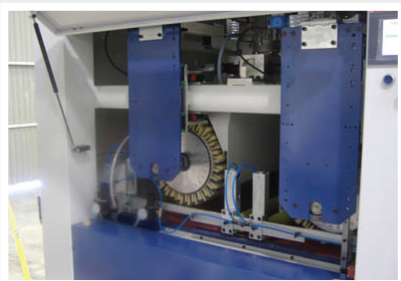

FUNCTIONS

For all kinds of flat surfaces or in relief. Machine with advanced features for medium and big sized production. Ideal as part of complete finishing lines.

FEATURES

Automated control and displayed by touch screen.
Storage of 24 programs
Independent drum speed control by inverter
Independent sanding pressure per drum
Conveyor speed control by inverter
Adjustable pneumatic pressure rollers
Air cleaning unit
Conveyor with vacuum

TECHNICAL SPECIFICATIONS

Machine Dimensions

1750 X 1950 X 2350mm

Sanding Dimensions

Maximum 1300 x 120mm

Minimum 200 x 100 x 4mm

Sanding Spindles

2 x spindles $\varnothing 40$ x 1300mm

Maximum external diameter
400mm

Equipment

Flex Trim $\varnothing 280$ sanding system

Speed Control

80 – 400 RPM

Conveyor speed

2 – 16m/min

Vacuum

Power 5,5 Kw

Power

10,5 Kw

Voltage

380V + neutral

Weight

2000 kg

Models

Width 1300mm
